Chapter 1

Elementally Leonardo DiCaprio

Introducing the "building blocks" of astrology

The ancients conceived of four elements that made up the universe: fire, earth, air and water. The section that follows provides a broad, general outline of your character and describes your "elemental" make-up.

Leonardo DiCaprio: The basics

Fewer than 2 planets in Earth signs:

Because of a certain restlessness and discontent, you're not the most practical person in the world. You may even be a bit spacey. In fact, sometimes you may wonder if you are of this world. Try using a "to do" list to your advantage and train yourself in the habit of carrying out important tasks without procrastinating. The things of the mundane hold little interest for you.

Four or more planets in Air signs:

Your mind is your most valuable asset and you could be an intellectual. The world of ideas is important to you. Intellectual companionship, seminars, books, magazines, films, and educational cassettes interest you. Feeding your mind is just as important as feeding your body. You probably enjoy being in school can be the place for you.

People fascinate you although you tend to regard them in a detached manner. You enjoy teamwork and social interactions a great deal. Sentimentality does not figure highly in most of your relationships.

You can excel in any field that requires negotiation skills. You probably do well in the fields of selling or

writing. You have an affinity for abstract reasoning and codes of law and ethics and are more objective than most people and probably more liberal in your thinking.

One of your weaknesses may be indecisiveness. Too much thinking can result in lost opportunities. There is a right time to get out of your head and make a decision. If you find that you can't sleep because your mind is racing, it might help for you to get up and work with your ideas, recording them on paper or on tape.

Four or more planets in Water signs:

A great deal of your time is spent in the world of feelings, emotions and intuitions. For the most part, your life is experienced as an ebb and flow of emotional tides and currents. You usually react strongly to the emotional atmosphere of any given situation. You don't deal with people so much by their outward appearance as you do by their inner state. You seem to know things intuitively and have some degree of psychic power. Your best communication is often nonverbal.

You are very impressionable though you try to hide it. Since intangibles play a great role in your life, practicality or intellectualism isn't necessarily your thing.

Few things bring you greater happiness than a successful close personal relationship. You have an innate understanding of the interconnectedness and interdependence of all forms of life. Empathy, compassion and emotional rapport are your strengths. However, not many people are ready to merge with another the way you are so you need to learn to recognize and respect other peoples' boundaries. Because of your constant awareness of other peoples' emotions, you need to protect yourself in ways such as the practice some form of daily prayer or meditation.

All things aquatic and nautical fascinate you and you are in your natural element when surrounded by water. So, get yourself a hot tub, a waterbed, an aquarium or a fountain. Or live by a great body of water. Because of your heightened sensitivity to fluids, you are advised to drink purified water or bottled water.

Five or more planets in Cardinal signs:

You like to start things and take the initiative. You have to act, but do not like to be told what to do. You are restless, energetic, driving, outgoing, opportunistic and ambitious. You're full of primal energy and do not cope well with direct and constant supervision. You're suited for self-employment, or the kind of work where you are in charge. Probably, you're more busy than bored.

You've a strong outward orientation to career, love, home and family. Deal directly with your surroundings and with other people.

Chapter 2

Sun for Leonardo DiCaprio

The Sun gives you light and life. It also represents how and where you shine. The Sun is the star of self-expression, ego-identity, leadership, honor, glory and pride.

Sun in Scorpio:

Essentially, you're a strong individual who has intense likes and dislikes. You can be an extremely good friend, as well as a formidable enemy. You live mostly in a black and white world.

You have little time for superficial people, ideas, or things. You prefer deep commitment, deep conversation, and deep thoughts. If you can't tell it like it is, you prefer to keep quiet. It should be mentioned that you have your share of secrets.

And then there are your eyes! We could write a whole book about the looks that you can give. We'd have a chapter on "staring" and a chapter on "x-ray vision". No doubt people say things about your eyes like "If looks could kill!"

You've proven to everyone that you can hang in there to the end. Your staying power is second to none. Now you need to learn to let go. Every day, try to find some possession to sell, give away, throw out, or burn. If you want to get the most out of life, let go of the old junk, literally, figuratively, and most importantly, psychologically.

You have issues with forgiveness and acceptance that tend to make your personal relationships challenging. You must also contend with your powerful emotional drives and desires. Love it or hate it, yours is the fate of a "Sun Sign Scorpio!"

Sun in 2nd house:

You can find yourself and be yourself in the financial world. You need to take on greater financial accountability. You can become a star in this arena. When it comes to money, it may be possible for you to light the way for others. Try to find creative uses for your money.

You can lose yourself by forgetting that your security comes from your sense of self, not your money. Be proud of your earning power. Since to a large extent you are defined by your values, it is crucial that you have a clear understanding of what they are and can declare them with pride.

You can ground yourself and get in touch with the earth by spending a lot of time in outdoor settings. You might write a new clause in your will that allocates funds for an environmental program. Or you might invest more in a mutual fund that invests in Earth-conscious businesses. Make an effort to go out and watch the leaves change. Maybe even enjoy some spelunking (cave exploration).

Ruler of 5th house in 1st:

You will work to diminish the impatient, combative side of human nature. To give from the heart, you are encouraged to improve your personal appearance, temperament and disposition. Your personal identity can be very much tied up in your appearance. A "do it yourself" attitude may be necessary for success. To express your love, consider living the kind of life that gets you into the limelight. You can really achieve something by "playing with the controls" of your disposition. You can do something original, creative and brilliant with yourself.

Sun Conjunct Venus:

You know how to please people and you want to be liked. You can become a star by swaying others with your natural charm and style. You may be warm-hearted, affectionate, and social. You require comfort, pleasure, and luxury in your life in order for you to be you.

Sun Trine Saturn:

Virginia Woolf said, "I don't believe in aging. I believe in forever altering one's aspect to the sun."

You're serious, responsible, industrious, and hardworking. You probably matured early and may have missed out on much of the joy of childhood. You tend to get along well with mature people and the elderly. You can become a star by becoming more purposeful. You can become a self-made person through your discipline and follow-through.

You can become a star by learning how to get more joy out of the sheer struggle of life. Become consciously aware of the rules that you have made for yourself and for others and become aware of the inner critic which is always judging you.

Sun SemiSquare Asc.:

The universe wants you to know that it's OK for you to be an individual, to stand out, and to be just a bit different from everybody else. The universe supports your efforts to be a unique human being.

To be a star you need to clarify your life's purpose and increase your life force. From time to time, it is important for you to awake at dawn and begin your day with ritual, prayer, or meditation. Your life will be as interesting and exciting as you decide it will be.

Sun Sesquiquadrate MC:

You've had your share of conflicts with family and authority figures. Your ambitions can be challenges for you. It may seem that you can not get what you want by being yourself. To become a star you are advised to serve the needs of others, but do it on your own terms.

You need a challenging career. You would do well to work in a field where you can express the full force of your personality. At times you may find that you can overwhelm others. However, you're happier and better off commanding their respect. You can become a superstar by developing character and dignity.

You have leadership abilities. Your work could put you in the public spotlight. Before you set out to achieve your goals, however, it is important for you to define your basic sense of self, will, and purpose. You are likely to accomplish something very great. Powerful people will become your friends and allies.

Sun Tridecile Jupiter:

There's something big about you and your character. You're generous and have a zest for living. You are lucky and you tend to be warm, outgoing, and happy.

Your natural optimism and open-mindedness bring out the best in those you gather around you. Your lively sense of humor can compensate for many of your other less desirable traits. Celebrate big deals over big meals.

Sun Novile Pluto:

Have the courage to follow where your heart leads you, namely to the power of applied psychology. Will dramatic changes be necessary? Be honest with yourself. You could get more involved with musicians, insurance, power, secrets, therapy, renovations, life extension and "immortality." Go for it.

Venus Trine Saturn:

Does your value system sometimes put you in conflict with authority figures or maybe even the law? You take relationships very seriously, and when you feel needy, you tend to get rather serious which can drive others away, even if you don't intend to. Sometimes, you feel that you have been denied the love that you seek.

Because you don't think you often get the affection you want, relationships aren't always easy for you. You and your partner may act as if you are married to your work and duties. Therefore, you should strive to create a warm, personal home environment. With effort, over time, you can improve your love life. romance. With enough time and effort, you can find true love, possibly with older, more mature individuals. If you have learned your lessons, your love life will improve as you mature.

Venus Quincunx Chiron:

You should connect with a group of like minded individuals. For instance, you could find happiness in a writers' or artists' colony, or a meditation or healing circle. By being forceful but friendly to others, you can accomplish a lot. To get respect, learn to administer your authority fairly.

People admire your actions and your leadership ability. You often demonstrate courage and self confidence. To really pursue your goals, you need an exercise program suited to your individual needs.

Mars Semisextile True Node:

You should seek out people who can help you to pursue your goals. To get what you want, you must be competitive, if only with yourself. However, having a quarrelsome attitude could interfere with your destiny, so you need to control this.

Chapter 8

Saturn for Leonardo DiCaprio

Astrologically speaking, the planet Saturn is the force of discipline. Saturn defines your duties, responsibilities and the structure of your life. Saturn represents mastery, seasoned professionalism, efficiency, consolidation and dependability.

Saturn is Retrograde:

Something in you bristles against tradition, conventional wisdom and authority. You don't like to be told what to do. Evaluate when and where it is important to take on the establishment.

You can do some of your best work alone. Ironically, in your later years, you may become a leader.

Saturn in Cancer:

The way to get past your limits is to work through inhibited emotions, defensive attitudes, hypersensitivity, materialistic attachments and problematic, clannish family arrangements. You tend to keep many of your feelings to yourself and need to pay some dues and clarify your needs for closeness and intimacy. You can learn to get close without getting clingy.

Only by letting go can you find the true emotional security that you seek. You can claim your dignity and get the respect and approval you need by finding out what unconditional love is. Rejection and abandonment only come with conditional love, and conditional love is no love at all. Develop inner security and you earn the right to love.

Saturn in 10th house:

You can be held back until you become more mature and realistic about your place in society. You may have to pay some dues and redouble your determination to succeed. Take on new professional responsibilities.

The astrological classics all agree that you will rise in the world through steady, persistent efforts. It is important that you do not compromise your principles for the sake of your ambition. Balance your professional desires with what is fair and just.

Concentrate and then organize. Work on new standards of competency. Confront your fears of success. Build character by overcoming any limitations placed upon you by your old reputation. Work on coming to terms with your mother and father and male female social roles.

Sun Trine Saturn:

You tend to be emotionally cool, and can do some of your best work in private. Your organizational and executive abilities can create success. At least part of you is patient and precise. You will probably accomplish just about as much as you make up your mind to.

There are indications that you will have a long life, so please take good care of yourself. You can gain more power and a big payoff by making your health, well being and longevity a priority.

Venus Trine Saturn:

Parts of you are thrifty. Not only are you somewhat of a late bloomer, you can gain from doing business with the elderly. To gain more power, give concrete expression to your aesthetic values.

Moon Square Saturn:

Sometimes you can indulge yourself with melancholia, depression, guilt and negativity. This can be tied to possible mother complexes. To the extent that your existence is bleak,

you need to free yourself from the past and embrace the future. It is more true for you than most people, you are your own worst enemy and your own best friend.

Saturn Square Chiron:

Break a wall of silence. You may not have been born to a fully functional father figure. If you do not want to become old before your time, work to heal the father archetype.

One way or another, father figures can be challenge you. You may have to deal with personal as well as political consequences of the patriarchy. In time, you may become a "wise old person". It can be your job to council others. To gain more power, dedicate a good portion of your efforts to a 7 year long healing journey.

Saturn Binovile Pluto:

Chapter 8A

Chiron for Leonardo DiCaprio

Discovered in 1977, Chiron is a relative newcomer to astrology. Named after the half-brother of the Greek god Zeus, Chiron is a comet from outside our solar system, according to the latest scientific findings. In Greek mythology, Chiron was tutored by the Sun and the Moon (Apollo and Artemis) and, in turn, taught the offspring of other gods.

Chiron taught special skills such as astrology, philosophy, ethics, music, medicine, horseback riding, and weaponry. These skills were thought necessary for gods, and humans, to achieve their destinies. The position of Chiron in your birth chart denotes what and where you may teach or be taught. It is also where you can be healed and how you can heal others.

A Centaur, who is part human, and part horse, Chiron is a half-breed. His higher self sometimes struggles with his own animal nature. What follows is a description of the "chironic" side of your character.

Chiron is Retrograde:

The teachings that you were exposed to early in your life may not be the ones that work for you. A standard public school curriculum may not provide the education you require. You may need to search out a mentor or spend money on special teachers. It's likely that you will have to keep searching for the knowledge you need whatever that may be.

Chiron in Aries:

The key to your mind-body connection is your self image. You need to be a maverick. To optimize your health and maximize your energy, you need to act in accord with your true inner desires. You're the kind of person who can open new doorways to

the subjective world. Put another way, you don't need to convince others of anything. You need to believe more in yourself. Once you accept yourself, the world will accept you. Increase your capacity for holistic understanding by learning from astrologers, herbalists and massage therapists. It is your fate to be something of a healer or mentor. You could even become a guru of sorts.

Imagine for a moment that you're Mr. Spock of Star Trek fame, Yoda the Jedi Knight, or Helen Keller mentoring the blind. Give some sagacious thought to how your character is your destiny and how all observation is to some extent self observation.

Chiron in 7th house:

It's possible that people habitually want to tell you their problems. If this is so, you are advised to learn a healing modality and charge by the hour for your counseling skills.

Your equals, partners and significant others include mavericks. You could marry a non-conformist. Embark on a quest for cooperation. Find someone to teach you diplomatic skills. To be successful with your mating style and criteria, open up some new fields to the idea of two souls as one. Break out of relationship ruts. Build a bridge between the extremes of codependency and isolationism.

Moon Opposition Chiron:

"INNATALISM - The doctrine that human reproduction ought to be discouraged in favor of radical life extension as a chief means of perpetuating (trans)humanity." Mark Plus.

SPECIAL INITIATION: To simplify for beginners, in the introductory section on the moon, I neglected to point out what you might have inferred, if you had given it thought. The moon is also a symbol for robotics. With so much of our life unconscious we are very much a kind of biological computerized robot. We can learn to program our own programs. Mark Plus has given it a go. This concludes your message on instinctive mentoring.

Saturn Square Chiron:

Bucking authority are you? How have you been restricted? Was your family hostile and turbulent? Where have you put up walls and refused to deal with the world? The need is rising for you to go beyond your limits. You need to work for the future. Give yourself permission to be more free. Starting with yourself, test the status quo.

MC Quintile Chiron:

Your place in the world may allude you until you recover from the wounds of your childhood.

You can help yourself by helping children. Do something to positively advance the youth revolution.

Venus Quincunx Chiron:

Between your value system and that of society, something is out of joint.

You could devote yourself to the arts or woman's rights. Help society move beyond the patriarchy by reconnecting with your own instincts for beauty.

Unusual, original approaches to professional people could generate cash surprisingly fast.

Confront the media. Call talk shows. Write letters to editors. Publicly express your interest in profound things. Learn to hold and develop your attention. Do specific meditative exercises and you will get some immediate and amazing results.

your lifestyle.

Get more involved with people who have both scientific and astrological interests. Make new efforts in new directions. Put yourself in the center of a modernization effort.

Chapter 10

Neptune for Leonardo DiCaprio

Neptune represents fads, impressionability, style, glamour, imagination and inspiration. Neptune is the force of deep space and the force of consciousness expansion.

Neptune in Sagittarius:

When it comes to the world of religion, you tend to be part of a generation that has a blind spot. Your religious beliefs are lofty and even far sighted, you are surrounded on all sides by old, outworn philosophies. Everybody seems to be saying that theirs is the only true way, and they all contradict one another, and coerce themselves and each other into submission. This may tempt you to revert to cynicism and pessimism. Suffice it to say that any group that says that theirs is the only way, and uses violence and coercion to get their way, is wrong.

Write the affirmation "Nothing is permanent or pervasive. Everything appears to pass and to change. I go with the flow. I create the change." 7 times a day for 7 weeks. For at least 5 minutes a day for 5 weeks, concentrate your mind exclusively on the thought "If they aren't that happy, then they aren't that smart. When I'm not that happy, I can make smarter choices".

Neptune in 3rd house:

You can create your ideal neighborhood. Start by continuously flooding your mind with pictures and images of people who live in gorgeous neighborhoods and have open lines of communication and one ear to the phone. Stop watching TV shows and movies about people who aren't connected to or relating wonderfully to those around them. Enjoy a flight of fancy about rapport. As an after-thought, go hear a keynote speaker articulate the virtues of community. Be sure to sit up front

where you can hear them loud and clear. Listen for hidden messages. Further instructions will arrive in the future.

Ruler of 12th house in 1st:

You could be undone by alcohol and drugs. Poor self image and low self esteem might be a hidden enemy or weakness. However, in every negative situation is the potential for something good. You can reverse the effects of bad luck if you get into the spirit of self-development. Buy a camera and take some photographs of people who can serve as hero models for you. Listen to more music upbeat music, especially with lots of brass. Sometimes you're dreaming and sometimes you're awake. Other times you're in trance states. Make the most of the situation. Hypnotise yourself to be more positive and sincere in your temperament and disposition. Make your mantra, "I do it myself with ease and pleasure."

Neptune Conjunct True Node:

Cavort with kindred spirits. Every few years or so, rent a place on the water and invite lots of friends to share your hospitality. Study the idea of "Water Brother" as developed by Robert A. Heinlein in Stranger in a Strange Land.

To fulfill your destiny, you need to develop your psychic and intuitive skills. Just as importantly, you need to learn to see yourself and other people and situations as they are, not as you really wish they were.

Jupiter Square Neptune:

Some trend setting skills can be yours. Allow your humanitarian instincts to guide you. Your psychic and spiritual insight can help you to do for others what they can't do for themselves. Show some more mystical, cheerful compassion. Allow your soft spot for animals to expand.

Neptune Sextile Pluto:

Somewhat consciously and somewhat unconsciously you will be influenced by and personally able to utilize supernatural forces. We're talking seeking truth and self mastery. Put an end to the insignificant side of your life. Develop a mystical comprehension of destiny.

Mars Semisextile Neptune:

Creative waves from cosmic tides give you a flair for drama. You've a powerful imagination and are a bit of a crusader and a tantalizer. Do something with color and design. Cash in on your charisma. Be romantic and expressive. Avoid making unwise promises or being unduly influenced by the promises of others. Stand up for yourself. Direct some of your vanity into the pursuit of physical fitness. You can be persistently inspired.

Uranus Novile Neptune:

The hand of prophecy will touch you. You can inspire your astrologers and psychics. You can become charismatic and glamorous by waking up and revising your values. Get wired to something holy.

Allow metaphysical elements to animate and enliven you. Seek initiation into higher consciousness. Become a visionary genius and a visionary activist. Help to peacefully dissolve restrictive social structures. Fight trickery and deceit. Avoid hasty action based upon mere suspicion. Make the most of this transition between great ages.

Chapter 11

Pluto for Leonardo DiCaprio

Astrologically speaking, Pluto is the force of cleansing. Pluto represents trust and violation of trust, control, obsessions and power struggles. Pluto is the force of intense transformation.

Pluto in Libra:

You're also part of a Pluto generation that finds it extremely important to exert conscious will power over your most significant relationships. Your generation knows that equality is more than just an expression and part of your task is to eliminate discrimination and harassment. To some degree, your obsession or fear of commitment, is a generational issue. Fate has arranged for you to experience some catharsis, trauma and transformation through partnerships and marriage. Purge yourself of people who aren't dealing with the changing realities of the 1990's. Create deep healing and intimate relationships.

Pluto in 1st house:

Be vigorous; make reorganization a permanent part of your lifestyle. Exploit your capacities to the fullest. Consider self employment. Renew your striving toward personal goals. Intensify your own personal power. Learn to stand your ground and restructure your life. Paradoxically, you may fear your power while it intimidates others. Folks may mistake you for a member of the CIA, KGB, Massad or whatever. It is you yourself who must learn to raise a little hell or get burned.

Ruler of 8th house in 2nd:

Try giving a sweet honey flavor to your life. Resources, liquid assets, earnings, values, money and possessions will all

play a key role in your love life. You are marked for extra riches and rewards. To get them, make sure that you are doing the "right thing" with the right mate.

Pluto Conjunct Asc.:

You are capable of maintaining a great masquerade. In lieu of struggling to control others, work to control yourself. Instead of stealthing yourself against others, strive to plummet the depths of your own soul.

Neptune Sextile Pluto:

Consciously or unconsciously, historical forces will touch you. Master a form of meditation.

More than one opportunity will arise to turn your fantasies into a reality.

Pluto Sextile True Node:

Transform your environment. Make some radical ecological changes. Study history in terms of ice ages. Find out what it means to move heaven and earth.

Mars Semisextile Pluto:

At times you may act drastically, possibly because of conscious or unconscious anger. Channel more of your considerable energy into creative projects.

Jupiter Quincunx Pluto:

Ask yourself if you want to control others or be happy. You have a righteous wrath. When it is triggered, woe to those who are in the wrong. They may be smitten verily.

If other sections of this report offer confirmation, you could achieve great wealth. You've a talent for transforming yourself and society. You can do something distinguished and prominent for the great masses of people.

Sun Novile Pluto:

Are you ruthless with yourself? Are you constantly striving for more? Do you punish yourself for not being good enough?

Have you crossed the word compromise out of your dictionary? Keep your eyes off of self transformation and you may plummet into a bottomless chasm. Control of others does not bring you the safety, success or satisfaction. Self control is helpful. Self transformation is pivotal. Develop deep roots and you will rise far in life.

Saturn Binovile Pluto:

Organize your life in a way that is conducive to the acquisition of health and wealth. You can form intense and loyal commitments. Learn from past mistakes and you will profit in the future. If you're fearful of being manipulated it's probably with good reason and from hard experience. Avoid vigilantes. Taking the law into your own hands is not to be taken lightly or without sufficient reason.

As you mature, part of your task will be to figure out and get to the bottom of your father and power issues. Perhaps your father did not claim all of his power. Maybe he had few models of how to succeed in the world and had to invent his own.

Chapter 12

Moon's Node for Leonardo DiCaprio

The nodes represent points in space where the moon's orbit crosses the orbit of the Earth as the Earth orbits the Sun.

True Node in Sagittarius:

It is possible that in a past life you were stuck in a rather superficial provincial reality and never really focused your efforts. To this day, your path of least resistance may be that of quick temporary solutions, but it is not necessarily the way for you to go.

When under stress, you scatter your energies. In your present incarnation, be more receptive to opportunities for travel and education. In fact, the best part of your future is far away from your place of birth and in an academic setting.

Identify your chief purpose in life. Read *Think and Grow Rich* by Napoleon Hill. Develop single-mindedness. To be more you need to learn more. Fulfill yourself through new areas of international experience. Attune yourself to forces from the future that are encouraging you to become more sporty and social.

Tie down loose ends on the local scene and focus on the big picture. Work to acquire a more cosmopolitan and worldly point of view. Live in a neighborhood that supports your vision.

It is possible that in a past life you lived in India, Nepal or Tibet. This time around, Akashic (a record of all that has ever occurred) forces are leading you to visit, do business with and make friends with people from the American West, Columbia, Peru, Ecuador and Chile.

North Node in 3rd house:

Part of the cosmic plan is that in this lifetime you are being nudged to think for yourself and question authority. Over the course of other lifetimes you may have focused on whatever the local religious establishment deemed appropriate. For the purposes of this incarnation the stars impel that you please consider giving yourself an education.

Neptune Conjunct True Node:

Cycling through past lives, you were conceivably a musician, sailor, slave, idealist, mystic, and saint. As some kind of monk/nun/health nut you've explored unusual ideas.

Celestial sounds will play a pivotal role in your destiny. You need the complete recordings Paul Horn made inside the Great Pyramid. It's distributed by Celestial Harmonies.

Attune yourself to the music of the spheres, and the fates will smile with you. Get a copy of The Planets by Gustav Holst and play this symphony regularly.

Jupiter Square True Node:

Deal with agriculture and nutrition, and the fates will be kinder to you. To the extent that by your own standards, you're overweight or underweight, you have yet to meet the challenge to balance consumption with output.

It is conceivable that in a cycle of past lives you were a lawyer, a soldier of fortune, and a bible thumper. You could have even been a Buddha, Santa Claus and Uncle Sam. Clearly this time around you need to do something in a big way. Everybody wants to know when you'll pull the goodies out of your bag.

Pluto Sextile True Node:

Cycling through past lives, you were conceivably a spy, tax collector, head shrinker, and member of the political underground.

The greater that you focus your concentration on attracting, absorbing, assimilating and radiating and savoring

increasingly healthy and vigorous levels of cosmic vitality the kinder the fates will be to you.

In a parallel universe, you are a high priestess in a sacred temple.

Mars Semisextile True Node:

The more that you pay attention to your health and well being, the kinder the fates will be to you.

It is conceivable that in a cycle of past lives you were a police officer, a martial artist, a warrior, a dare devil and a fire fighter. It is not unlikely that you fought many great battles and died many violent deaths.

Mercury Novile True Node:

The more that you pay attention to semantics, the kinder fate will be to you.

It is conceivable that in a cycle of past lives you were a messenger and a reporter.

To the extent that you make excuses for not knowing better or not bothering to learn, you have yet to meet your challenge to get smart.

Uranus Novile True Node:

The more that you integrate the scientific method into your lifestyle, the more you will come to understand the fates. To the extent that you are bothered by radical ideas you have not yet met the challenge of confronting your own genius.

It is conceivable that in a cycle of past lives you were a scientist, a soothsayer, a wizard, a genius, a crank and a mother of invention. This time around, dare to enrich your existence by becoming more unique. Do what it takes to fill your life with surprise.
